Amazon at School:

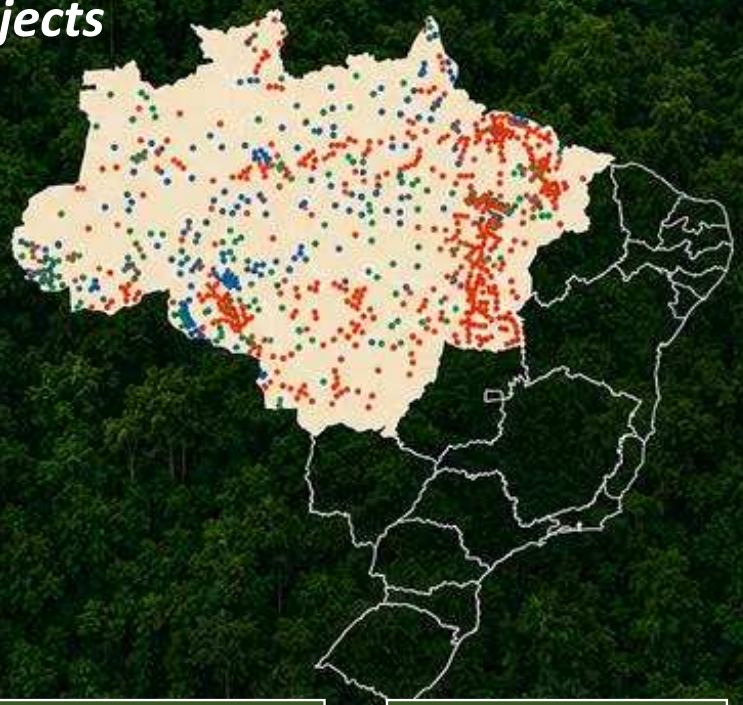
Healthy and Sustainable Food

BNDES

AMAZON FUND

The Amazon Fund is a REDD+ mechanism created to raise donations for non-reimbursable investments in efforts to prevent, monitor and combat deforestation, as well as to promote the preservation and sustainable use in the Brazilian Amazon.

US$ 1.6 billion in donations
160 approved projects



+650
organizations supported directly or indirectly

75%
of municipalities in the Legal Amazon have projects

Sustainable production

Activities that keep the forest standing have economic attractiveness

Monitoring and control

Government actions ensure compliance with environmental legislation

Land use planning

The Legal Amazon is territorially ordered

Science, innovation and economic instruments

Economic tools and science and technology support biodiversity

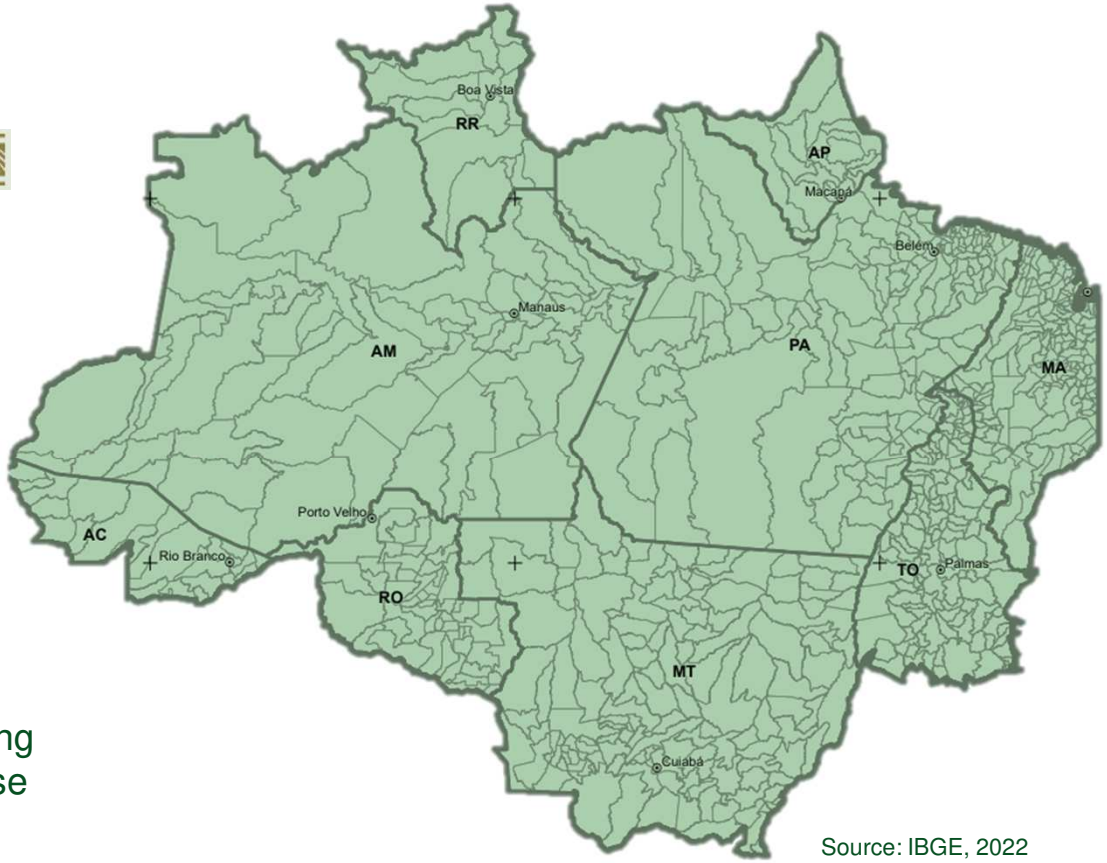
Challenges

Amazon

Critical indicators of school infrastructure and educational quality

One of the worst indicators of poverty, malnutrition, and poor nutrition, especially in rural areas

Lack of alternative employment and income-generating opportunities drives families toward predatory land use



Source: IBGE, 2022

School meals, through the PNAE, can become a sustainable source of income for family farming households, including Indigenous Peoples, Quilombola communities, and other Traditional Peoples and Communities, ensuring quality food for children and young people.

Solution

Strengthen supply and demand

PRODUCTION

Sustainable Base

Family Farming

Production of food on a sustainable basis by family farmers through the improvement of production infrastructure and the strengthening of their organizations.

+

ACQUISITION AND CONSUMPTION

Public Education Networks

Acquisition and consumption of food of this nature for school meals in public education networks across the Legal Amazon.

Amazon at School

Public Call for Proposals
